The Illinois EPA Bureau of Water has prepared a draft National Pollutant Discharge Elimination System (NPDES) permit for the City of Chicago, Department of Water Management, whose address is 1000 East Ohio Street, Chicago, Illinois 60611. The applicant has proposed multiple discharges (see <http://www.epa.illinois.gov/Assets/iepa/public-notices/2015/city-of-chicago/public-notice.pdf> for additional information).

The Illinois EPA is holding a hearing to accept comments from the public on the proposed reissuance of a permit with modifications for this project, prior to making a final decision on the permit application. Issues relevant to this proceeding include the applicant's compliance with requirements of the federal Clean Water Act and Subtitle C and 35 Illinois Adm. Code. Because Illinois is mandated by state law to issue a permit if the applicant meets the requirements for obtaining a permit, those recommending denial of the permit application should be prepared to state the regulation that is the basis of their recommendation.

The applicant is engaged in conveying domestic and industrial wastewater for the City of Chicago and other surrounding municipalities.

The length of the permit is approximately 5 years.

The receiving streams are the North Shore Channel, North and South Branch(es) of the Chicago River, Chicago River, Sanitary and Ship Canal, Calumet River, Des Plaines River, North Branch Canal, Collateral Canal, South Fork of South Branch Chicago River, Little Calumet River, and the Calumet Sag Channel.

This permit authorizes discharge from 184 Combined Sewer Overflows (CSOs) in accordance with 35 Ill. Adm. Code 306.305. The flow from these discharges varies.

The Illinois EPA has made a tentative determination to issue this NPDES permit with modifications for discharge into waters of the state in accordance with 35 Illinois Adm. Code Subtitle C (Water Pollution), the Illinois Environmental Protection Act and the federal Clean Water Act. The draft NPDES permit and the public notice/fact sheet were public noticed on February 27, 2015 and are available online at: <http://www.epa.illinois.gov/Assets/iepa/public-notices/2015/city-of-chicago/public-notice.pdf>.
